Recommendation letter for Ms Veli Yelis

By this letter, I confirm that Veli Yelis was a student of the MSc program in Logistics at Molde University College. She was at our University College from 2010 to 2012, when she completed the Master of Science degree in Logistics.

I was at the time serving as the coordinator for this study program and I learned to know Ms Yelis a bit through some conversations we had. In my view, she showed a strong personality that helped her never give up, even in difficult times. I believe this strenght could also prove to be valuable in a job situation.

Sincerely,

Halvard Arntzen, Associate Professor
Molde University College
